SKYPE MUSIC WITH THE TURK'S

Donna and Morgan Turk were teachers and performers for many years in Calgary, AB but now reside in the small village of Forget, SK. They are often asked how has the transition been, and while it's been good, they miss their friends, family and students left behind in Calgary. Without high expectations, Donna Skyped a few students this past year, and to her surprise it worked wonderfully! Old school technology with delays and freezing was a minimum! It was easy to communicate and have an entire lesson without interruptions. It's convenient and personal to have a lesson in the comfort of your own home - you can even have a lesson in your pj's! Skype lessons proved so successful, that Morgan has now decided to Skype students as well! If you are looking to advance your technique or study a new style, why not try a Skype or Facetime lesson with Donna or Morgan today!

The "Right Student"

- An intermediate to advanced player
- Would like to learn from the comfort of their own house
- Looking to work with a teacher who knows how to communicate
- Wants to improve their technique or learn a new style of music
- \$30 for 30 min; \$45 for 45 min
- Free 30 min lesson to try it out!

"Violin lessons via Skype have been a huge time and money saver! No more hours lost traveling back and forth in inclement weather. Lessons are done in my home and I have extra time to get more work done. I also no longer require a babysitter for my younger children. Skype has been great!"

Sue I.

"I have been doing lessons on Skype with Donna most every week for the past year. It has been a very satisfactory experience and I actually prefer skype to 'in person'. Not only do I not have to travel, but scheduling is easier and it is an up-close experience. I highly recommend Donna as a fiddle teacher for any level, and also recommend the skype experience."

Kathy VR.

"I'm so glad the Skype lessons worked out so well. It's surprisingly close to seeing her in person, and I'm grateful for that because it would have been really hard to find a teacher as good as Donna - I would have missed her a lot!!"

Natalie K.

"I took up fiddling as an adult and achieved a decent intermediate level of playing when no matter what I tried, I could not progress any further. My goal is to be able to play with the Players, not watch from the sidelines. I tried regular in-person lessons and attended every camp and workshop I could without getting past this stumbling block but I was not willing to accept being "intermediate forever."

Then I met Donna Turk. She is that rare combination of a professional performer and a gifted teacher, joyful about her music and passionate about passing it on to her students. In two very short sessions at a workshop, she identified the issue with my bowing arm technique that was causing my frustration.

I was leery of taking lessons on Skype. How could it be as good as face-to-face instruction? But in order to be Donna's student, I was willing to try it. Now a year later, I know that Skype lessons with Donna are very effective, high quality, professional instruction. As well as intensive work on my bowing technique, she is expertly guiding me through all aspects of good fiddling. And as a bonus, I have my lessons in the privacy and comfort of my own home.
